

IPA News letter-04 (INDIA)

Date: 23rd April 2011

Message from the IPA Team

Dear all

IPA has been working on the commitment to excellence and innovation to bring the world's leading manufacturers tie up with Indian companies to represent their products and services in India. We are happy to bring out the second News Letter of Indian PROFIBUS, PROFINET Association (IPA). This news letter is a face of IPA in India & will showcase the details of the events that are worked out by IPA. We are glad to inform you all, that we have currently 18 active members from various industry manufacturing sectors & our uniqueness lies in the participation of Educational Institutes in our organisation. IPA will publish this news letter every quarter & request all the members to contribute with Technical articles so that these can be included in the news letter.

Happy reading

From

Indian Profibus and Profinet Association Welcomes you !

India PROFIBUS & PROFINET protocols are supported by IPA, founded in 2009 as the INDIAN PROFIBUS & PROFINET ASSOCIATION. It works on the commitment to excellence and innovation to bring the world's leading manufacturers tie up with Indian companies to represent their products and services in India. IPA through its PROFIBUS and PROFINET promotion has been supporting the vision with the best automation technology available. IPA connects Indian industries to the world's most popular fieldbus PROFIBUS, and to the technology-leading Industrial Ethernet, PROFINET. The IPA helps to educate various industries & Institutes through its website, training classes, seminars etc. There are four types of members in the IPA: Device Manufacturers, System Integrators, End Users & Universities where each receives unique benefits.

The Launch of the Website “profibusindia” is a prime kudo bestowed on IPA. The objective is to assist communication between the IPA members and thus boost the IPA activities. Members of IPA can put up advertisements and also provide technical details on different problems faced by the users. The upcoming events that the IPA decides to participate or conduct will be conveyed through this website.

AGM Meeting

IPA AGM was held on the 9th October 2010 in Pune. The AGM began with a warm welcome of the special guest of honor Mr. B. R Mehta, Sr. VP Instrumentation, Reliance Industries Mumbai and the representatives of various member companies who marked their presence. Mr. Dileep Miskin briefed the members on the IPA activities. Mr. Mehta put forth his ideas & guided IPA on the further development. According to him, membership should be done in four major areas that are Manufacturers, End Users, Consultants and Academia. Mr. Karandikar, Chairman of IPA, focused on the networking at members level i.e members get members for IPA while Mr. Milind Kulkarni spoke on the main cause of IPA being the Spreading of Technology. With a view of “Training the Trainers”, Mr. Dhamankar expressed the responsibility to make the PROFIBUS PROFINET technology reach the institutes.

AGM-9TH OCT 2010

Core Committee Meeting

A Core Committee Meeting was held on the 20th of January 2011. The core committee members Mr. Dileep Miskin, Mr. Lalit Sahani, Mr. Milind Kulkarni and Mr. Chandrashekhar Dhamankar discussed about the activities for the financial year 2011. The discussion included :

- The participation in Automation 2011,
- The participation in Hannover Messe IA 2011 at Bangalore,
- The participation in Eleccrama 2012,
- IPA PROFIBUS PROFINET days,
- Representing IPA in the PI Meeting at Switzerland,
- IPA website creation where among the vital decisions taken.
- Automation 2011 will be inaugurated by PI Chairman Mr. Joerg Freitag & we all expect make it a big show from the IPA

Rising Involvement of the Educational Sector in the Indian PROFIBUS PROFINET Association

IPA witnesses the participation of educational institutions in the association. Technical Institutions viz. Padmabhooshan Vasantraodada Patil Institute of Technology, Sangli, Rajarambapu Institute of Technology, Sangli and Pune Vidyarthi Griha's College of Engineering, Cummins College of Engineering for Women are now a part of IPA. Technocrats produced here will be in vogue with the developments in the PROFIBUS PROFINET technology.

Upcoming Events

After a successful participation in **Automation 2010**, IPA now looks forward to the **Automation 2011**. Scheduled in the month of September in Mumbai, the Event is to be inaugurated by Mr. Joerg Freitag, Chairman of PI.

Profibus Conference will be held in this fair, imparting the basics of the PROFIBUS and PROFINET technology to the users, vendors, manufacturers and the students attending the fair in large numbers.

Hannover Fair at Bangalore in **December 2011** and the **Elecrama** at **Mumbai in January 2012**, will also see the active participation of IPA influencing the technical minds towards the PROFIBUS PROFINET Technology.

Profibus Professional Courses

Indian PI Competence Center (PICC), hosted by the UL Group of Companies conducts Courses for training in Profibus. The Training Calender for 2011 is published.

IPA, through its PROFIBUS and PROFINET promotion has been supporting the vision with the best automation technology available. IPA is a marketing organization which, during its activities, has as goal to organize a marketplace for its members. This marketplace is a location where suppliers and purchasing companies can meet each other. The Association makes sure that the members are always supplied with the most up to date information in relation to PROFIBUS & PROFINET. This occurs by way of PROFI news, the international e-magazine. Besides that the organization regularly organizes info meetings which are specifically set up to keep the members up to date. As a company, which develops its own products with a PROFIBUS-interface, you can have these products placed in the Online Product Guide and in the GSD-library. By placing your products here potential clients will find your company as a supplier of products which are as per the specifications of their individual expectations-package. In this way, in one single move, your market area contains the entire world!

IPA Membership Benefits

Authorized members can have many other benefits mentioned below:

- Participation to a collective stand for different trade fairs
- Participation to IPA events
- Presence on the PROFIBUS.COM-sites with a link to your own homepage
