

UL GROUP
Nothing's Complex

U L Group is a B to Y Solution Provider company involved in promotion of Industrial Connectivity, Industrial Communication, Industrial Interfacing, Industrial Engineering, products, tools, software's & solutions for electrical, electronics, control & automation industries. In our Industrial Communication Division, we provide products & solutions for various field buses such as Profibus, Foundation Fieldbus, Ethernet, fibre optics and wireless. We are authorized members for Profibus International Organization in this region of Asia. We provide every solution in the field of Profibus which includes Products, Services and Solutions (PS&S) under one roof. We would like to inform our clients that all accessories of Profibus & Profinet such as connectors, cables, diagnostic tools are available with UL Group with the training programs on Profibus, Profinet technologies. **India's 1st Profibus International Competency Centre (PICC) is set up by UL Group.** The vision of UL is to simplify the complex requirements of customers with simplified solutions. That is very well specified in our Logo tagline **Nothing's Complex**
